

## Data Sheet

### **SRC1**

#### Basic System Remote Control

The SRC1 infrared remote control is designed for use with Russound's CAA66, CAM6.6, and CAV6.6 multiroom systems, as well as with the SaphIR K2 keypad. A basic system remote without programming or learning capability, it can control up to six source components connected to the Russound system.

Two favorite preset keys allow direct selection of preferred programs when used with a CAM or CAV system. Page Up and Page Down keys in addition to standard cursor keys support on-screen menu navigation. A Disc key enables direct selection of a disc in a multidisc CD or DVD changer. Discrete source keys allow selection of sources on the Russound system without scrolling through a source list.

The SRC1 comes in a black finish and employs a sleek ergonomic design with widely spaced keys for comfort and ease of use.

## Specifications
